DIOGO AIME

"I think it came to revolutionize the tattoo furniture market, the META WORKSTATION is quite functional. Very practical, the drawers are composed by several modules, which can be removable. Is very Simple, and shines because of it. For example, other Workstations has too much visual noise, many components etc. With META WORKSTATION it doesn't happen."

JOHNNY DOMUS

“I was surprised by the big workspace area and storage flexibility of META WORKSTATION.

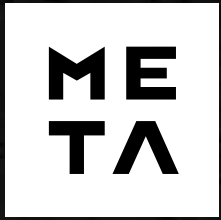

This tattoo workstation responds to something that I value a lot - hygiene. The large smooth top allows easy and effective cleaning”
